

We supply high-quality recycled PET

We secure **high-quality recycled PET** and **large volumes** for demanding customers in the fast-growing sustainable packaging market in Europe.

Sustainability

Recycling *PETpackaging*

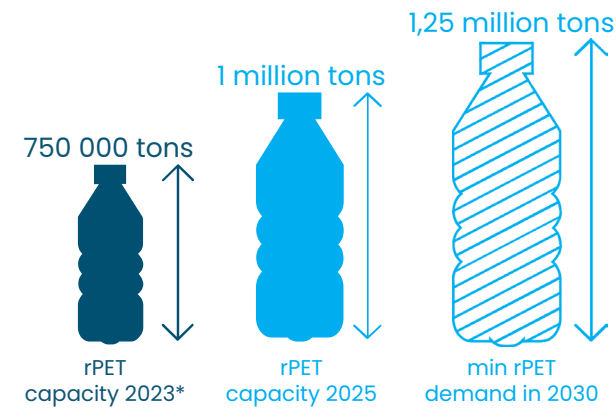

CircularPET **BottleToBottle**

CircularEconomy

Market insight

The beverage industry is already committed in the circular economy; by 2025, **PET bottles must contain at least 25% recycled plastic** and from 2030, the requirement will be 30% for all beverage bottles.

Demand for rPET Food Grade in 2025 and 2030 compared to rPET capacity in Europe in tons in 2023

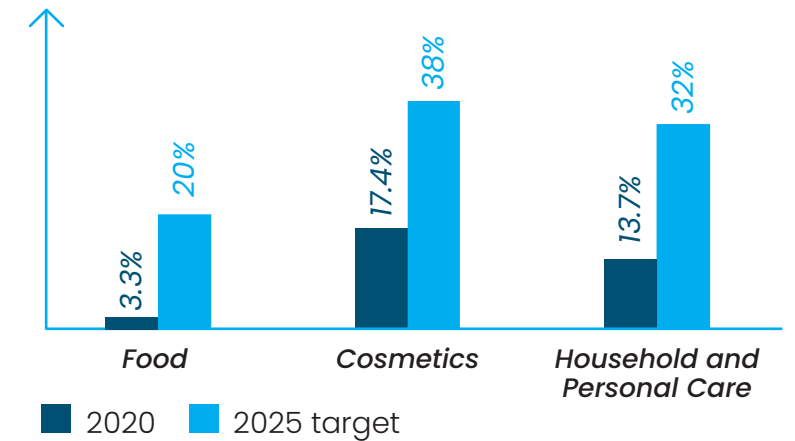

* Source: ICIS Recycling Supply Tracker; Aloxe

The needs of the food, cosmetics & beverage industries are tremendous.

Cosmetics, Pharmaceutical, Household and Personal Care & Food industries are also **committed to more recycled content by 2025.**

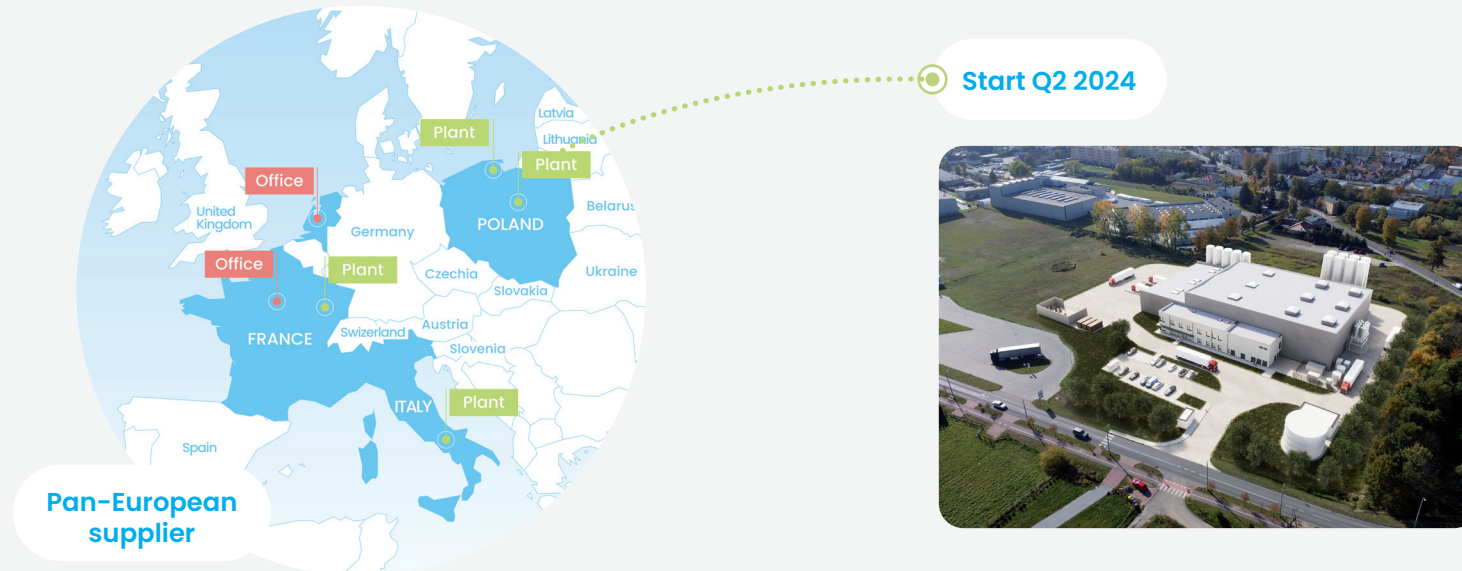

Average share of post-consumer recycled content in plastic packaging as a % of total plastic packaging weight by sector.
